Message from Roots Action: *The terrible and widespread killing in Syria will become even more terrible and more widespread if the U.S. military (or a coalition of allies) launches an attack. The choice is not between doing nothing and bombing the Syrian people. Let those who would bomb people in our names know that they have alternatives:*

Editable Form Letter from *Roots Action* at [link](#) [6]:

"Dear _____,

As a constituent, I am writing to let you know that I oppose a military attack on Syria. Creative diplomacy is the best way to respond to the alleged use of chemical weapons. I urge you to work for a ceasefire, to pressure Saudi Arabia, the Gulf states, and Turkey, to halt the flow of weapons, and to pressure Russia and Iran to do the same.?

Thanks and good going!
