In the garden: More about sand

Submitted by lambert on Sat, 05/03/2014 - 1:11pm

Here's what I mean:

This is where I grew zinnias last year (hat tip for picket fence, CaseyOR) [1].

It's like a concentrated essence of all the ugliness of mud season has been sprayed all over my front yard beds. Then again, when I start working with the sand as a substance, instead of imagining it as a contaminant, perhaps I'll feel happier about it.
